A Corporation.**

HISTORICAL STATEMENT

AT THE request of Right Rev. Thaddeus Amat, C. M., D. D., Bishop of Monterey and Los Angeles, the Vincentians or Priests of the Congregation of the Mission, by whom this institution is conducted, came to Los Angeles in 1864, for the purpose of founding a college.

Receiving little encouragement, and encountering many difficulties, it was some months before the proposed college became a reality. Finally triumphing over every obstacle, these heroic men, devoted to God and the cause of education, rented an old adobe building near the Plaza, and a boarding and day school was opened on August 10, 1865. Two years later, the faculty and students moved into a new and commodious building at Sixth and Hill streets, on property generously given for the purpose by the late O. W. Childs.

On August 5, 1869, Very Rev. James McGill, C. M., being president, the institution received from the California State Board of Education its charter, empowering it to confer degrees.

In 1886, under the presidency of the late Very Rev. A. J. Meyer, C. M., it was necessary to find new accommodations for the increasing number of students. The old location opposite Central Park was sold, and a new site on Grand avenue and Washington street was purchased. The new building, an ornament to the part of the city in which it is located, was finished and occupied in February, 1887. This structure, situated in one of the finest parts of beautiful and salubrious Los Angeles, is large and commodious, well supplied with modern improvements, and has ample grounds for recreation and athletics.

The Courses of Instruction

For the full development of the mind, and as a preparation for the battle of life, a young man should have a liberal education. From long experience it is the conviction of cultured and educated men that a thorough training in languages, mathematics and the sciences is the best means of securing such an education.

COLLEGIATE DEPARTMENT

There are two courses in the college open to those who seek degrees. The Classical embraces four years, and leads to the degree of Bachelor of Arts. In this course special attention is devoted to Latin and Greek—the study of which is obligatory. English, Mathematics and the Sciences receive due attention.

In the Scientific course, instead of Latin and Greek, the modern languages—French, German and Spanish—are substituted. Moreover, extra time is devoted to the study of Sciences. English and Mathematics are the same as in the Classical course. Upon the satisfactory completion of the course, the degree of Bachelor of Science is conferred.

ACADEMIC DEPARTMENT

Leading up to the Freshman classes of the classical and the Scientific courses in the College is an Academic course, in which preparation is made for the college studies. No boy will be received who is not able to keep up with the work of the sixth grade of the grammar schools of California. This grade requires the ability to read and write and a knowledge of the first principles of arithmetic up to fractions, at least.

COMMERCIAL DEPARTMENT

For those who may desire a commercial education, there is a Commercial course, which, in addition to the studies pursued in the Academic department, prescribes Bookkeeping and Banking, Commercial Law, the practice of active business transactions, business correspondence, etc. Upon the satisfactory completion of this course, the Institution confers a Commercial Diploma.

Examinations—Reports

During the scholastic year there are two general examinations. In the month of January there is an oral examination in English, Latin, Greek and Mathematics. In the other branches the examination is written. In June the general examination is written.

On these examinations depends the promotion of the student. If, however, anyone fail in an examination in one or two branches, and his class standing has been satisfactory, he will be allowed a certain time to prepare, and then be given a second examination. Passing this satisfactorily, the student will be permitted to advance with his class.

On the first Tuesday of each month the marks of all the students are publicly read in presence of the President and the Professors. A record of these monthly averages, and of the results of the general examinations, is carefully preserved.

Parents or guardians are furnished with quarterly reports of the students' standing.

Degrees and Diplomas

The degree of Bachelor of Arts is conferred on the satisfactory completion of the Classical course. Graduates who, for two years longer, pursue Scientific or Literary studies, may apply for the degree of Master of Arts.

The degree of Bachelor of Sciences is conferred on the satisfactory completion of the Scientific course. Two years longer spent in scientific study may entitle the graduate from this department to the degree of Master of Sciences.

Diplomas are presented to those students who have completed in an approved manner the studies of the Commercial department.

Prizes

The "Alumni Gold Medal of Excellence" is annually presented to the student of the Classical course who has the highest general average for the year. This medal of excellence is regarded as the most desirable prize in the College. It is the gift of the Society of the Alumni of St. Vincent's.

The "English Essay" Gold Medal is awarded the collegiate student writing the best paper on a given subject in the competition contest for this prize.

The "Father Meyer" Gold Medal is awarded the successful student in the public contest in Elocution, held annually during commencement week.

The "Junior Elocution" Gold Medal is to be annually awarded the successful student in the Junior Elocution contest.

The "Science" Gold Medal is to be annually awarded the student of the Scientific Course having the highest general average in his classes.

The "Academic" Gold Medal is presented to the student of the Academic department having the highest general average in his classes at the end of the year.

A Gold Medal is awarded the successful competitor in the annual contest in Christian Doctrine.

During commencement week, premiums are distributed to those students who, having obtained the required average, stand first in their respective classes.

Students reaching an average of 80 per cent in a class receive an honorable mention in the annual catalogue.

Scholarships

Thus far in the history of St. Vincent's College no scholarships have been founded. To those familiar with colleges this fact cannot but appear lamentable; and we hope to be able to announce in our next catalogue that friends of the College and those anxious to confer the lasting benefit of a sound, Catholic education upon poor, but deserving boys and young men, have donated the amount required for the establishment of, at least, several scholarships. To found a scholarship for a day scholar, the sum of sixteen hundred dollars is required. To found a scholarship for a boarder, the sum of eight thousand dollars is required. The founder of these scholarships has the right in perpetuity to keep one boy or young man free in the College.

To found a Five-Year Scholarship for a day pupil, two hundred and fifty dollars are necessary.

For a Five-Year Boarder's Scholarship, twelve hundred dollars are necessary.

Discipline

Applicants for admission to the College are required to present testimonials of their good moral character.

St. Vincent's College is a Catholic institution, but students of any denomination are admitted, provided they are willing to attend, with proper respect, the religious exercises prescribed for the students in general.

The faculty, recognizing that there can be no thorough education—education of mind and heart—independent of the benign influence of religion, gives special attention to the teaching of Christian Doctrine, and requires each Catholic student to approach the sacrament of penance once a month and the Holy Communion as often, if permitted by his confessor.

The students are expected to conduct themselves on all

occasions with the manliness, the propriety of word and manner, the genuine politeness and courtesy that distinguish the Christian gentleman.

That the students may give due attention to propriety of bearing and to personal neatness, inspection by the President is held twice a week.

Letters to and from the students are subject to the inspection of the President, or of one appointed by him.

Pocket money may be deposited with the Prefect of Discipline. No advance will be made beyond the deposit.

The use of tobacco is prohibited, except to those having the permission of their parents or guardians. This permission may be used only during certain hours and in a specified place. It must be made known in writing to the President.

No student is allowed to leave the College premises without permission. Should anyone but a parent or guardian desire to take a student into the city on a visit, or on business, it shall be permitted only at the written request of parents or guardians.

Permissions of this kind may be refused on account of previous infringement of college discipline.

Profane or improper language, quarreling and such like improprieties are not tolerated.

The commission of any of the following faults renders the transgressor liable to expulsion from the College, viz.: Habitual use of profane language, any gross immodesty, intoxication, the introduction of liquor into the College, leaving the College grounds after dark, going into the city without permission, conduct tending to bring disgrace upon the College, obstinate refusal to submit to a punishment, open contempt of religion.

Special Regulations

The scholastic year consists of two sessions of five months each. The first session opens at the beginning of September,

and closes at the end of January ; the second begins on the first day of February, and closes in the last week of June.

There are no classes taught on Wednesdays, or on days of religious or national observance. There is a vacation of one week at Christmas and at Easter.

Day pupils are expected to be in the College at 8:30 o'clock a. m. Recitations begin at 9 a. m. There is a short recess at 10:30 a. m. At noon there is a recess of one hour. Studies and recitations are resumed at 1 o'clock and continue until 3:30 p. m., at which time the day pupils are dismissed.

As the time spent in College is almost entirely occupied in recitation and instruction, day pupils are expected to prepare their lessons at home.

Punctual attendance is strictly enforced. In case of absence or notable tardiness a note from parents or guardians is required, giving a satisfactory reason for such absence or tardiness.
